# Door Manager

Door Manager:

- Blish door specifications

- Applies to several model files in the same project

- A complete overview of all door information synchronised with all model files in a project

- Automatic door descriptions/-reports and change logs

- Work anywhere with or without a BIM program

- All you need is an Internet access

Your benefits working with BIMeye

According to existing users these are just some of your benefits working with BIMeye:

1. Increased efficiency
2. Enhanced collaboration
3. Reduction in data discrepancies
4. Full control and streamlining of BIM data
5. Greater predictability & transparency
6. Accelerates overall project delivery

BIMeye Apps

With BIMeye you have a series of customised apps giving you and your team the possibility to work smarter in an easy way, independent of any BIM or CAD programs. BIMeye allows all parties in a construction project access to the data all through the project planning and beyond to facility management.
