

# Revision Manager

# Revision Manager:

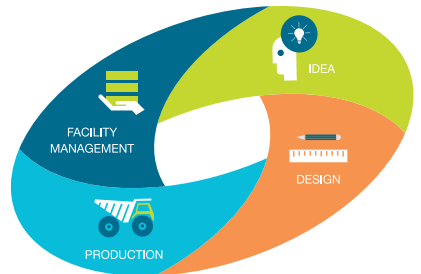

- Revise and communicate easily with all parties in a project
- Communicate revisions in a project with one or more model files
- Trace and save your changes in a project
- Get great capacity and quick search for requests and assignments
- Work anywhere with or without a CAD or BIM program
- All you need is an internet connection

## Your benefits working with BIMeye

According to existing users these are just some of your benefits working with BIMeye:

1. Increased efficiency
2. Enhanced collaboration
3. Reduction in data discrepancies
4. Full control and streamlining of BIM data
5. Greater predictability & transparency
6. Accelerates overall project delivery

## BIMeye Apps

With BIMeye you have a series of customised apps giving you and your team the possibility to work smarter in an easy way, independent of any BIM or CAD programs. BIMeye allows all parties in a construction project access to the data all through the project planning and beyond to facility management.
