

Review Manager

Review Manager:

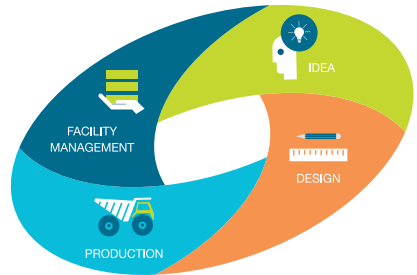

- Work as a team on a project
- Discuss detailed questions on the web
- Let persons with no access to the BIM model review cases, and ask questions
- Document and treat all questions within a specific area of a 3D model
- Coordination from one source, snapshot to all – when needed
- Automatic features for clipping and transfer
- Work anywhere with or without a CAD or BIM program
- All you need is an internet connection

Your benefits working with BIMeye

According to existing users these are just some of your benefits working with BIMeye:

1. Increased efficiency
2. Enhanced collaboration
3. Reduction in data discrepancies
4. Full control and streamlining of BIM data
5. Greater predictability & transparency
6. Accelerates overall project deliver

BIMeye Apps

With BIMeye you have a series of customised apps giving you and your team the possibility to work smarter in an easy way, independent of any BIM or CAD programs. BIMeye allows all parties in a construction project access to the data all through the project planning and beyond to facility management.
