

Room Manager

# Room Manager:

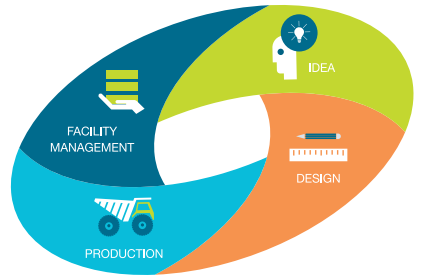

- Work as a team
- Create, modify, sort and release room information – in one or more 3D models within the same project
- An overview on all room information, synchronised with model files in a project
- Automatic room description reports Automatic PM-handling
- Work anywhere, with or without a BIM/CAD program
- All you need is an internet connection

## Your benefits working with BIMeye

According to existing users these are just some of your benefits working with BIMeye:

1. Increased efficiency
2. Enhanced collaboration
3. Reduction in data discrepancies
4. Full control and streamlining of BIM data
5. Greater predictability & transparency
6. Accelerates overall project deliver

## BIMeye Apps

With BIMeye you have a series of customised apps giving you and your team the possibility to work smarter in an easy way, independent of any BIM or CAD programs. BIMeye allows all parties in a construction project access to the data all through the project planning and beyond to facility management.
